

## Moving On Just Got Easier

Transportation has always been one of the major barriers for youth. To ensure full integration and maximum exposure to all the programs and services offered at our Learn to Earn locations we provide transportation for youth in the program to our various sites.

CCAP operates two fifteen passenger vans. The graphic design was created by Dawson Communications of North Kingstown and wrapped by [Graphic Innovations](#) of Pawtucket.

Transportation of youth participating in our Youth & Skills Centers in Providence, Pawtucket, Warwick and West Warwick is a key to their success. Our Providence Skills Center offers certified training in CVS's Pharmacy Tech and the National Retail Federation Customer Services. The Warwick Skills Center offers certified training in CVS's One Hour Photo Tech. We can also transport youth to Leadership Groups being run at the Woodlawn CDC, to job interviews or arrange for a group to visit a local college or university.

Having in house transportation allows us greater flexibility in getting youth to these services. On

site transportation removes a major barrier and reduces costs by not having to duplicate programs at each facility. It is much more cost effective to bring youth to existing services. Transportation will also allow youth to have access to many more services in CCAP's provider network.

## Need more information?
